INSTALLATION & AFTER CARE INSTRUCTIONS:

Installation:

All Paris Mirror backlit and LED mirrors have been independently tested for compliance with electrical equipment (safety) regulations.

All illuminated and backlit mirrors are IP44 rated.

Illuminated mirrors have been designed and independently tested for compliance to electrical equipment (safety) regulations, and are UL Certified.

LEDs have a life expectancy of 120,000 hours of continuous use. All LED light fittings are replaceable and are available through Paris Mirror customer service.

IMPORTANT: Always switch off the electrical supply at the mains during installation and maintenance. It is recommended that fuse

is withdrawn or circuit breaker switched off before installation begins.

Fitting in Bathrooms is subject to all regulations. It is not suitable for product installations in Saunas, Steam Rooms, or shower cubicles, and it is recommended for permanent installation.

Care Safety:

Wear suitable eye wear protection when drilling. Use caution when using power tools near water, beware of hidden cables or pipes.

Take care if drilling on tiled surfaces in case the drill slips. A piece of masking tape applied to wall before marking out fixing holes will stop drill from moving.

Cleaning & Maintenance:

It is recommended that the unit is cleaned with a soft, dry, non-abrasive cloth when turned off.

Never use cleaning agents or abrasive material on any type of surface finish.

Do not strike glass components with hard or pointed items.

Do not place very hot or cold items against or close proximity to glass surfaces.
